+38163 1609503

Junior Frontend Developer passionate about creating user-friendly, detail-oriented interfaces using HTML, CSS, JavaScript, React.js, Node.js, and MongoDB. My journey began with designing electronic wedding invitations on Tilda, which sparked my interest in web development and led me to coding.

After completing a 721-hour "Web Developer" course at Yandex Practicum, I am now dedicated to applying my skills in challenging projects that combine creativity with technical problem-solving. Fast learner, currently expanding my expertise with TypeScript. Open to remote roles and collaborative opportunities worldwide.

Feel free to connect with me to discuss opportunities or collaboration.

Willing to relocate to: United Kingdom

## Work Experience

---

### Web Developer Apprenticeship

Yandex Practicum-Belgrade

December 2022 to May 2024

Completed an intensive Web Developer program at Yandex Practicum, gaining hands-on experience in building full-stack applications. Developed a strong foundation in HTML, CSS, JavaScript, React.js, Node.js, MongoDB, Webpack, and Express.js. Worked on multiple projects, including responsive and user-friendly applications with complex frontend and backend integrations. Achieved proficiency in developing scalable web solutions, enhancing both technical and problem-solving skills. Successfully completed the program, showcasing dedication to continuous learning and growth in web development.

### Project Manager

marinetech-Москва

February 2023 to April 2024

Project Launch and Management within the Grant for the Creation of a Specialized Technology Development Center "Technologies for Reducing Anthropogenic Impact." The project aims to develop a digital platform for collecting and analyzing data on anthropogenic impact on the environment.
